FOREWORD

by Harry A Hopkins

Each year Mariane and I try to make the FANDOM DIRECTORY better by making it more complete, more accurate and more useful to Fandom. We list 13,898 individual entries this year. These listings come from 50 different countries, including 12,664 from the United States, 504 from Canada and 694 from 48 other countries. We've seen a massive outpouring of support for the Directory from around the world. For example, this year we received artwork submissions from the US, Canada, Austria, Australia, Bulgaria, England, and Poland. Also, we received advertising from the US, Canada, Denmark, Australia, England, West Germany, and Italy. We hope you enjoy the international flavor that the Directory is taking on. Fandom has at its roots a universal language, the love of Science Fiction and Fantasy, from which all other fandoms have grown. If a few more national leaders were fans... maybe... but that's another story.

In our efforts to expand the Directory we are constantly aware of the need to keep our data as current as possible. As I explained last year, we do this mainly by contacts within Fandom and by making "Address Correction Requested" mailings twice each year. This year, however, we began a program to cull "deadwood" from the Directory's listings. Over the years some publications, organizations and conventions have placed themselves into the Directory, functioned for awhile and disappeared; but for all of our efforts to learn of these goings we've been told by a few voices within Fandom that "deadwood" has indeed crept into the Directory. Shock! Horror! Not to take this criticism lightly, we've instituted a new program; which was reported widely in the fan press last year. The procedure is a simple one, and all who make use of the Directory should know about it. Since the main offenders making up the "deadwood" category were fan publications, fan organizations and conventions, these three categories are now purged annually from the Directory. Publications, organizations and conventions must recertify their existence each year in order to be listed in the next edition. This is ONLY for publications, organizations and conventions, NOT for anyone else. In response to our mailing in October to all the fan publications, organizations and conventions which we knew of, 1152 returned our data forms and are listed in this edition. Unfortunately though, 868 did not respond and were dropped from our listings. (Actually, I'm an old softie and I gave a 12-month grace period to another 954 publications, organizations and conventions who did not respond to our October mailing but were new listings within the past 18 months. So really, we have 2106 publications, organizations and conventions in the main Alphabetical and Zip Code Listings, but only 1152 in the Zine, Club and Con Indexes. However, next year, no more Mr Nice Guy!)

Each year we encourage criticism and we take each letter or comment seriously. I think our response to the "deadwood" criticism shows that. This year we had two other requests for improvements to the Directory. One was that we include more demographic information about the listings in the Directory and the other was that we quit emphasizing comics as the main fandom served by the Directory.

The first of the above suggested improvements resulted in the expanded demographics information page which appears on page 4 of this edition. It is divided into three main sections. The top section is the ever-present and absolutely essential listing which translates the status and interest codes appearing after each entry in the Zip Code Listing. The middle section is an expanded breakdown of the frequency and percentage of listings for the top status and interest codes. The bottom section is a new table which shows the number of listings in each US state and Canadian province, plus each of the countries with 3 or more entries. California and New York seem to be the two main centers of US Fandom. Combined they make up 28.8 percent of our US listings.

The second of the above suggested improvements has us puzzled. We try not to "push" any one fandom over the others. It is a fact, however, that more fans have listed "Comics" as an interest in the data forms they have sent to us than any other interest. Over the years since 1979, when the Comics interest was nearly triple the Science Fiction interest, the gap between these top two interests has narrowed considerably. For example, the comics code added only 914 new listings this year, while the Science Fiction interest added 1490, thus narrowing last year's 9.6 percent gap to less than 5 percentage points. Without wanting to go too much out on a limb, I think 1985 will be the year that Science Fiction fandom finally passes Comics fandom as the top interest within the FANDOM DIRECTORY.

This year's cover was drawn by Dennis Fujitake of Honolulu, Hawaii. Dennis is well known to anyone who is into alternative press publications. His excellent illustrations can be seen in Fantagraphics Books' "Dalgoda", a color comic book written by Jan Strnad. Long time FANDOM DIRECTORY fans may also remember Dennis did our first color cover, back in 1981. We wish you all the best Dennis!

As you thumb through the pages of this edition you will find 149 individual pieces of artwork drawn by 50 different artists from 6 different countries. These 50 artists' full names and addresses are listed on page 7 along with a cross reference to the pages on which their works appear. I recommend these artists to anyone who is seeking quality illustrations for any publication.

The winning artwork in this year's art contest is displayed beginning on page 145. We had 77 artists submit 106 pieces trying for one of the 21 prizes. The grand prize winner this year is Julius "Jay" Shell. Congratulations Jay! Our thanks go to the five judges who had the task of sifting through the mountain of artwork which we received again this year. I don't know how each year the judges are able to select only 1 grand prize, 10 second prizes and 10 honorable mentions from among the many, many outstanding pieces we receive. The competition gets better each year.

Page 57, is where you'll find the fourth annual listing of Research Libraries of Interest to Fandom (RLIF) compiled by Randall W Scott of the Michigan State University Libraries. This year Randall lists 90 libraries around the globe with popular culture sections which are of interest to fans. A library is a great place to see the many works most of us can only dream of ever owning. Drop by one of the libraries listed soon and tell 'em RLIF sent ya.

One of our most popular features has always been the Retail Stores Index. This year, beginning on page 127, we list 983 retail stores which stock all those items we collectors cannot seem to live without. I suggest you drop by your nearest store often and be sure to remind the owner that you found them in the pages of the FANDOM DIRECTORY. If they do not already stock the Directory, ask them to contact one of our distributors listed on page 2.

I'd like to thank the 114 advertisers who, this year, combined to place 64 pages of advertising. These advertisers are essential to the Directory and your patronage of them will keep them coming back. The advertisers are the main reason we have been able to keep our cover price at $9.95 for the past two years, and probably will be able to do so again in 1986. Go to page 356 and see if you can find any goodies you'd like to own.

Finally, for the first time, the FANDOM DIRECTORY is now available in a hard bound library edition. For only $19.95 you can own a cloth bound edition of this year's Directory. Contact Borgo Press P O Box 2845 San Bernardino, CA 92406 if you're interested.

Sometime during this next year, let us hear from you with your thoughts on how we can improve the Directory. Your praise and brickbats are both encouraged and welcomed. If we are to improve we need to know both what we are doing wrong and what we are doing right. We hope you enjoy this year's Directory and find it useful in the pursuit of our mutual love -- Fandom.

RESEARCH LIBRARIES OF INTEREST TO FANDOM (RLIF)

Compiled by Randall W. Scott

This is the fourth annual RLIF directory, listing libraries whose collections and policies indicate that they are of special interest to fandom. Updates and omitted or new information are always welcome and should be sent to Randall W. Scott, Michigan State University Libraries, East Lansing, Michigan 48824. Phone: (517) 353-4526.

Except where explicitly noted the information is based on personal correspondence or visits to the libraries listed. Only one of the 90 collections listed is included solely on the strength of another published report, and that report is cited in the entry. This data is as accurate as I can make it as of January 15, 1985.

Two groups of users are envisioned for this directory: readers and researchers who need the resources of a collection larger or more rare than they themselves can amass, and collectors, dealers or publishers looking for places to donate or sell their material. I have tried to include only collections that give the interests of fandom some pride of place, either by making their material non-circulating or through other special handling or designation.

Important: Call or write before you visit any of these libraries. One of the librarian's duties is to protect the collections for posterity. If you make yourself known in advance, we're less likely to seem like we're protecting the collection from you!

LAST MINUTE ADDITIONS

The following 36 entries were all received at the last minute. All of these entries came in to us between February 1st and February 16th. These names appear neither in the Alphabetical Listing nor the Zip Code Listing. They were pasted up just 24 hours prior to delivery of the final pages to our printer on February 18th. These 36 made it in at the last second, but each year there are dozens of disappointed people whose data forms arrive too late for inclusion in the current edition. To avoid missing out, please get your information in early.

ANNOUNCING

HARLAN ELLISON'S

first NEW book

in two years!

SLEEPLESS NIGHTS IN THE PROCRUSTEAN BED: ESSAYS BY HARLAN ELLISON

Edited by Marty Clark

"One of the great living American short story writers."
— *Washington Post*

"It's long past time for Harlan Ellison to be awarded the title: 20th-century Lewis Carroll."
— *Los Angeles Times*

In his first book in two years, Harlan Ellison, winner of the prestigious Silver Pen for Journalism from the international P.E.N., has gathered together the best of almost thirty years of provocative and entertaining essays, touching upon such diverse subjects as: science fiction and fantasy and their writers; television and Hollywood and how each has bastardized the art of the cinema; modern American culture and what it is doing to us; religious fanaticism; writers and their writing organizations; murder, mayhem, and violence in America; and the inestimable Harlan Ellison himself. This late-twentieth-century Mencken has revitalized the art of the essay, and made it into something pointed, poignant, personal, public, and utterly without peer. Viva Harlan!

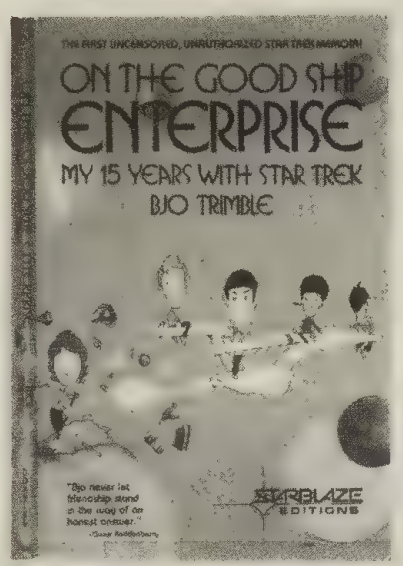
ON THE GOOD SHIP ENTERPRISE:



My 15 Years With Star Trek
by
Bjo Trimble

Author of the bestselling *Star Trek Concordance*

"Bjo was there in the beginning of **Star Trek** *and I doubt anyone else could write with more facts and memories about the long, long voyage of* **Star Trek** *from those very early days to the present."*

—DeForest Kelley (Dr. McCoy)

"Bjo Trimble never let friendship stand in the way of an honest answer."
—Gene Roddenberry (Creator of **Star Trek***)*

In the first unauthorized, uncensored *Star Trek* memoir, Bjo Trimble takes the reader behind the scenes for the warmth, the drama, the hilarity of the TV series and the movies: the stars, the crew, the producers, the writers...and the fans.

Beginning with NBC's announcement that the network was going to cancel the show, Bjo describes the letter-writing campaign she and her husband, John, spearheaded, which resulted in *Star Trek* being renewed—allowing it to become the most popular science fiction media phenomenon in TV history.

Thus began her fifteen year voyage—where no fan had gone before—*On The Good Ship Enterprise*, as unofficial "den mother" and liaison for many new fans.

In this candid account, Bjo covers the *Star Trek* phenomenon from first fan contact with the TV series to the making of the second movie. She tells with humor of her own work answering fan letters, organizing conventions, helping publish the first *Star Trek* newsletter, shepherding the cast and crew through the rigors and rewards of *Star Trek* fandom, meeting the greats and near-greats of the science fiction world.

Bjo Trimble is a legend to millions of *Star Trek* fans, for helping save *Star Trek*. She is a writer, was a columnist for *Starlog* magazine, and involved in nearly every facet of science fiction fandom. She is a popular speaker at science fiction and *Star Trek* conventions everywhere.

On The Good Ship Enterprise is illustrated with the wry and hilarious cartoons of Scott Hill in his first book publication. This young upcoming artist was personally selected by Bjo Trimble to illustrate her book, and she is proud to introduce Scott to the world of fandom.

Look for this book in your favorite book store, but if you can't find it there, you may order directly from the author (and incidentally ask for an autograph!)

"I suspect that you will be smiling throughout the reading. I am still glowing. Unique and special experiences."
—George Takei (Mr. Sulu)

SPACE WRITE NOW!

Congressmen can't read minds. They'll naturally cut costs wherever the constituents seem to care the least. For too long, these cuts have been in the Space budget because we have *NOT* spoken up! It's not enough to be *for* space, learn to be a consistent constituent for space!

Don't stop after the first letter. The effort needs constant communication with the budget-cutters in Washington. Keep on writing letters, and ask others to help . . . widen the circle of space advocates who want to reach out for space.

THE FOLLOWING PEOPLE NEED YOUR OPINIONS. SO *WRITE NOW!* TO THESE VERY IMPORTANT POLICY-MAKERS AND ASK OTHERS TO DO SO.

THE PRESIDENT OF THE UNITED STATES, The White House, 1600 Pennsylvania Avenue, Washington, D.C. 20500.

OFFICE OF MANAGEMENT & BUDGET, Executive Office Building, Washington, D.C. 20503.

1. *Type or write letters LEGIBLY.*
2. *BE BRIEF. One page or even one paragraph would be best.*
3. *BE POLITE. Snotty letters get thrown away or—worse!—used as "examples" by The Press. . .*
4. *Avoid form letters. Be yourself.*
5. *KEEP TO THE SUBJECT. Don't throw in other problems.*
6. *DON'T GET POLITICAL. This is NO time for parties!*
7. *Do NOT send carbons as substitutes for letters. Send carbons of your letters to your own Congressman to show them that a voter has an opinion they'd best listen to if they want to get reelected.*
8. *Use business-sized (#10) envelopes whenever possible.*
9. *Use white or light-colored stationery whenever possible.*
10. *Use letterhead stationery whenever possible, IF ENTITLED TO USE IT.*
11. *Don't ask for a personal reply and expect a standard "form" letter.*
12. *Circulate petitions ONLY as a last resort. They are often counted as only one letter. A LETTER IS MUCH BETTER. TELEGRAMS ARE AS GOOD.*
13. *Now that you've written your weekly letter, ask 10 people to write.*
14. *And have those 10 people ask 10 more people to write letters.*
15. *Those 10 people then ask TEN MORE PEOPLE TO WRITE LETTERS, and so on. . .*
16. *WRITE ON! And keep writing!*

CALL YOUR LOCAL RADIO STATION: TALK TO A CALL IN SHOW. Tell as many people as possible about space

---

DO IT NOW! Not "maybe next week" or "when I get the time . . ." Each day, more drastic budget-cutting decisions are being made. And many of those budget-cuts affect our Space Program.

GEPPI'S
wants to buy what others can't afford!

Frankly, we aren't interested in most comics from the last 20 years or so or even all comic books that have been published. We can get most of these easily enough from our thousands of regular customers

We are, however, keenly interested in the harder to find choice comics every collector dreams about but few dealers have available. We have always prided ourselves on our rare comic selection, and we want to continue to have the inventory a serious collector can't find elsewhere.

We realize that to achieve this, we have to pay more. And we will. If you have any of the following books for sale, sell them to us. We can afford them.

Any Mile High or Poughkeepsie books
Pre-1942 Golden Age — any condition
Golden Age (1943-1950) in FN or better
EC's in VF or better
Early Marvels (Pre-1964) in VF or better
Silver Age DC's in VF or better
Action, Detective, Adventure, Superboy, Superman, Batman, World's Finest, Wonder Woman, Strange Adventures, Mystery in Space from 1950-1957 in FN or better
Barks ducks, Little Lulu, Sugar & Spike, Katy Keene in VG or better

Our wants, of course, aren't limited to this list; these are just our top inventory needs. There are many other comics that we'd buy at rates competitive with any other dealer. Just send a list of what you have to:

105. Malpo the Mighty

Breaking away from Jupiter's gravity used an enormous amount of fuel. But we still had enough for landing at the Manhattan Rocket Center. A thunder storm was raging as we got out of the *6X53*. Lightning struck and short-circuited Malpo. The iron man went berserk. He crashed through the rocket center on a wild rampage. (What will happen with this strange visitor from another planet on the loose in New York? Card 112 continues the story of Malpo the Mighty.)

THE NEWSPAPER OF THE SCIENCE FICTION FIELD

Isaac Asimov: "There is no way, for anyone fascinated by science fiction, to get out of reading *LOCUS*. It is the *Time* magazine and Walter Winchell of the field It misses nothing, tells everything, keeps you abreast and in the swim, and I wouldn't be without it —And I won't be for I have put down the money for a lifetime subscription."

Ben Bova: "*LOCUS* is *the* science fiction newsletter No one who is interested in the field should be without it."

Marion Zimmer Bradley: "*LOCUS* is where I look first for shop talk—it is the real trade paper of science fiction There have been times when I first heard through *LOCUS*, (not my agent) that a new book of mine is on the stands "

Algis Budrys: "Without a doubt, the single most valuable periodical within the SF community; a labor of devotion, a bulletin board, a monument "

Arthur C. Clarke: "*LOCUS* is the only periodical I read from cover to cover—including adverts!"

Fritz Leiber: "*LOCUS* has been both a pioneering publication and a consistently high performer This little magazine sets the standards for accuracy and scope in its reporting of the news in the science fiction and fantasy publishing fields, and for level-headed interpretation of that news. I read it regularly "

Michael Moorcock: "As one who is notorious for his dislike of the social aspects of the SF world, I can say fairly that *LOCUS* is the only journal I know which retains a clear-sighted and impartial perspective on it. It's the only SF journal that I see regularly or would wish to see regularly "

***The New York Times*:** "Anyone whose interest in SF extends beyond reading it to wanting to read *about* it should be aware of *LOCUS*."

Frederik Pohl: "Charlie Brown has been a close friend for nearly twenty years, so anything I might say is suspect—but *LOCUS* is the most important publication in science fiction today."

Judy-Lynn del Rey: "*LOCUS* has become the *Publishers Weekly* of science fiction. It's must reading for anyone and everyone at all involved in the field "

Lester del Rey: "*LOCUS* is the one indispensable source of information for every reader and writer of science fiction. That's why I have a lifetime subscription."

Robert Silverberg: "*LOCUS* is indispensable.'

Theodore Sturgeon: "Anyone who is remotely interested in the many aspects of SF must—I said *must* – be or get, familiar with *LOCUS*."

Peter Straub: "I think it's the most *pertinent* magazine I get, and I'm very grateful that I subscribed.'

***The Wall Street Journal*:** " *the* science fiction trade magazine . . . "

Roger Zelazny: "For professionals and devotees alike *LOCUS* is the world's most important publication about science fiction."

FANDOM DIRECTORY ANNUAL RECERTIFICATION

In the next edition of the FANDOM DIRECTORY (to be published February 15, 1986) only those publications, conventions and organizations who recertify their existence will continue to be listed in the FANDOM DIRECTORY. There is no charge to have your publication, convention or organization listed, however, listings are not carried from year to year unless you reregister with us each year. Our purpose for requiring an annual recertification for publications, conventions and organizations is to prevent the inclusion of "deadwood" in future editions.

All you need to do to recertify is fill out the appropriate section(s) below and return this form to the address below prior to December 2, 1985.

Secrets of comic book restoration.

For nearly 12 years we've been providing the best in comic book restoration. To dealers and collectors worldwide, our name means magical craftsmanship. Unfortunately, personalized service such as we offer is often expensive and time-consuming, and some have not been able to afford the cost.

The solution? Introducing **The Restoration Lab Workshop™**. In just five days you can learn techniques which took us *years* to perfect.

You will learn by restoring your own books under the personal supervision of William Sarill, a master of his art. As a result the workshop starts paying back its cost immediately. By the end of five days, not only have you greatly increased the value of your books, you also walk away with the expertise to continue upgrading books by thousands of dollars for yourself and for others.

The workshop includes instruction in cleaning dirt and pencil marks, rust-proofing staples, stain removal, tape removal, invisible mending, filling in missing pieces, color touch-up, flattening wrinkles and creases, spine roll reversal, deacidification, cover reglossing and more.

Cost of the program is $1500 when offered in our lab in Cambridge. We will also train at your location for the same fee plus travel expenses. Admission to the workshop is by application only. Those accepted can select any available five-day period, including weekends.

We also offer weekend workshops at lower cost in restoring baseball cards, artwork, and other items. Contact us for more details on all of our programs.

And, of course, for those who can afford our rates ($40 per hour), we're still the only ones to turn to when you've got a job that just *has* to be done perfectly.

International Fan Location Service™

Direct mail advertising places your ad directly in the hands of fans, collectors, dealers, and others who are specifically interested in what *YOU* have to offer.

Through **INTERNATIONAL FANDOM LOCATION SERVICE**, you can *pinpoint* your audience with selected lists *and* pregummed, zip-sorted labels. IFLS can isolate such markets as "ALL DISNEY COLLECTORS," "ALL STAR TREK FANS IN THE EASTERN U.S.," "ALL MARVEL DEALERS IN CALIFORNIA," etc. The variations are limited only by your imagination

* Convention organizers can reach a specific area of the country, and avoid the UNNECESSARY EXPENSE of advertising nationwide for a local convention
* Fanzine publishers can reach hundreds of prospective artists and writers through direct mail communication
* Dealers can select mailing lists directed especially for their merchandise
* Movie producers can reach any specialized audience they wish by requesting "SCIENCE FICTION," "SWORD & SORCERY," "HORROR" or any other film fan interests
* Space advocacy groups can locate all the people on IFLS's list who are interested in helping promote space exploration.

These are only a FEW of the possibilities open to you through **INTERNATIONAL FANDOM LOCATION SERVICE**

Write for more details, a service price list, and a FREE consultation on how to get the best advertising dollar out of your direct mail campaign!

MYLAR® vs. PLASTIC:

There is a difference!

Whether you are a dealer or a collector, your comic books are in the safest hands possible when they rest in a MYLAR® sleeve. The U.S. Library of Congress along with museums around the world know that **only** MYLAR®, which is archival quality polyester film, offers superior protection for priceless documents. In fact, MYLAR® is the **sole** material chosen by the Library of Congress for their conservation use. Experts agree it is one of the most stable, durable, and inert of the many different kinds of films now available for document preservation.

Ordinary plastic bags and PVC sheets contain harmful chemical additives that can actually transfer to paper, causing them to stain, yellow, become brittle and eventually disintegrate. Our totally inert MYLAR® sleeves, called 'Snugs™," contain none of these additives. They are also many more times resistant to moisture, gases, acids, and other atmospheric pollutants. Snugs™ are manufactured by our exclusive heat-seal process that produces welds nearly twice as strong as those created through electronic sealing.

See for yourself why MYLAR® is the ultimate in protection for your collection. There **is** a difference — one that the Library of Congress can believe in. We at Bill Cole Enterprises know that you can too!

MYLAR® Snugs™ are made from 4 mil thick archival quality MYLAR® D.

Heat sealed on three sides with an open ended flap on top for safe and easy insertion of your books.

Acid-Free Boxes and Boards:

Extend the life of your collectibles

Ordinary corrugated storage boxes and cardboard are definitely NOT recommended for use in storing your books, magazines and other collectibles. Because of their acid content, they actually REDUCE the life expectancy of these collectibles.

Acid Free Cardboard

Our cardboard is made from the same material as our acid free boxes and is available in both .060 and .070 thicknesses. These heavyweight boards should be used when storing your paper collectibles without Mylar® sleeves.

Acid Free Boxes

All our boxes and backing/insert boards are made from solid, acid-free (minimum ph of 8.5 plus a 3% alkaline buffer) cardboard made of virgin wood cellulose. Our boxes are 52 mil thick and are shipped fully assembled with metal reinforced edges with the exception of Nos. 16, 17, & 18. They are shipped flat and are easily assembled without any tape or adhesive.

These boxes are the finest and most permanent storage containers available anywhere and are being used by archives and museums throughout the world. They can be used in conjunction with our Snugs™, Mylites™, Time-Lok® and Shur-Lock™ sleeves.

NOTE: The 20 mil tan board is thinner and will add rigidity to bags.
Made under the same stringent requirements as all our acid free boxes and board.

N-CAPSULATION™ AND E-CAPSULATION™ SERVICE

N-Capsulation™ is a unique Service which will hermetically seal your comic books in either 7 mil or 4 mil thick Mylar® D. Encapsulation greatly increases the life expectancy of your paper money while retaining the quality grade by keeping them totally safe from insects, moisture, air pollution, or any other aspects of the corrosive environment. Our 4 mil thick E-Capsulation™ Service offers the same superior protection using archival quality Mylar® D, but it is of a thinner material and less expensive than the N-Capsulation™.

Additionally, our new T-Capsulation™ Service, which is in the development stage, will eliminate oxygen and moisture and effectively halt the aging process. Your comic book is first sealed airtight by encapsulating it with 7 mil thick Mylar®, and at the same time harmful moisture and oxygen are replaced with an inert, non-poisonous gas. With whichever of the methods you decide to use, you'll get increased protection for your collection!

MINIMUM ORDER FOR ENCAPSULATION IS $10.00

DEACIDIFICATION:
WEI T'O® PRODUCTS

Wei t'o was an ancient Chinese god who protected books from fire, worms, insects and robbers. Wei t'o non-aqueous spray or solution deacidifies and protects documents, prints, books and works of art from becoming brittle. They neutralize existing acids which cause over 95% of paper deterioration and deposit a magnesium carbonate buffer to prevent further acidification. They also prevent yellowing by inhibiting trace metals (iron, copper and cobalt) from becoming a catalyst in the oxidizing reaction which causes discoloration.

The fast-drying 22 oz. spray is a quick and simple method for treating a minimum number of individual sheets and pages . . . just wet thoroughly and let dry. For larger applications use the 32 oz. size Wei t'o solution. It may be applied by hand, spray gun, brushing, roller coating or immersion. For the latter, our 7" x 14" x 18" Plexiglas dip tank is the ideal receptacle. The material may then be dried flat or on a rack.

Wei t'o is non-flammable, non-poisonous and, under ordinary circumstances, may be used with complete safety in a well ventilated room. One treatment offers indefinite protection. The last of 15 known original copies of the Declaration of Independence were treated with Wei t'o when discovered in 1968.
